Rextron Video (+Audio) Splitter broadcasts one single video (+Audio) source to 2 / 4 / 8 DVI or HDMI compatible outputs respectively, and the broadcast can be expanded significantly when several splitters are cascaded together. Depending on the length and cable quality, this fully HDCP compliant splitter supports resolutions of up to Full HD (1920 x 1080) / WUXGA (1920 x 1200), and is also Blu-ray ready. There is no need for software or interface card installation. Just connect the cables, power up the system and you are ready to have duplicated video images for multiple monitors with excellent clarity. Moreover, 4 / 8-ports series come with mountable size and can be easily mounted on the rack for space saving and efficiency working.
